

BIOGRAPHIES

Frank's Pharmacy: Staff Bios

Grace Buonagurio:

When we talk about Frank's Pharmacy being a family business, here is the reason: Frank's twin sister, who joined the team at the very start. Grace had a long career in finance and initially came on board to balance the books. But she stayed – and she ended up balancing the team. When she is not grinding away at administrative tasks, Grace supports staff in both departments. She plays a pivotal role in all store matters.

Nidia Fortuna-Buonagurio:

The visual merchandising artist of the store, Nidia is the mastermind behind the eye-catching seasonal displays and lovely gifts that keep bringing people back to the store. Her unerring tastes guarantee that Frank's Pharmacy shelves will always be filled with splendid products. This loving and painstaking work also brightens the store atmosphere and makes shopping a pleasure. When not working, Nidia keeps busy as Mrs. Frank Buonagurio.

Cecilia Muzio:

We consider Ceci the General of front-end operations here at Frank's. When Frank has an idea for improving business, Ceci implements it immediately. In addition, Ceci keeps the store stocked with an awesome variety of over-the-counter and seasonal products, ensuring that quality remains our priority. Ceci has been maintaining our inventory and getting it all done since the beginning, when she joined the staff as the store opened in 1991. If you can't find what you're looking for, just ask Ceci!

Natasha:

Born and bred in Jackson Heights, Natasha was a Frank's Pharmacy customer before she came on board eight years ago. She started as a technician in the pharmacy department and has since added matters of compliance and quality control to her job description. A tireless asset to our staff, Natasha has also taken a major role in helping us gear up for the Grand Reopening.

Patty Morelli:

Like Ceci, Patty joined our family back in 1991 when the store first opened. She brings her matchless work ethic, indomitable spirit and heart of gold to Frank's every day. While Patty is primarily seen in the prescription department, she's always happy to answer questions about anything. And if we don't have something, she is happy to order it on the spot for you! Consider Patty your personal shopper here in Jackson Heights.

Sonia Armijos:

A true pharmacy department fixture, Sonia joined the Frank's Pharmacy family of employees when they moved into their second Jackson heights location. Sonia's kind manner and efficient work have made her highly sought after by all pharmacy customers. No one can top her skills at assisting the pharmacist. While you will usually find Sonia busily typing away in the pharmacy department, don't hesitate to just stop by and say *hola!* She'll be glad you did.
